
How many sites use bots??

Posted by Whalewager - 2007/11/08 16:02

I know for a fact they do exist, but how prevalent do you believe they are in these online poker rooms??

If it wasn't blatant cheating I would create my own, and turn him on before I leave for work daily :laugh:

I don't get it. What is the point of a bot? Are people really that lazy? I thought people played, bc they like the game???

I don't understand why someone would use these either? I mean I just love to play the game. It isn't all about winning even though I do like it when I win.

I can see no point in using bots. What for? I thought people were playing poker for fun.

I am not to sure how they work but I would imagine that they would play for you which might give you a better chance of winning. I just think that would take all the fun out of it not to say to me it is downright cheating.
