
Quad threes

I played limit holdem in a local casino last week and stayed in with pocket 3s because I was big blind.

I got a 3 on the flop and one more on 5th street! The pot I won was around \$50, but the casino has a "nuts Thursday" contest that pays off on any 4 of a kind, so I won a \$200 bonus in addition to the pot. Player has to use both their cards to get the bonus.

It was great--casino workers cheering and bringing trays full of chips to my table. I will be playing again there very soon.
