---

The worst hand i won with was a High Card 8

It was with 4 people online and i wasn't doing good at all that round. I just went all in and 2 people folded and the 2 other people had worst hands. Lol, was a good day for me

My worst hand was a High Card 10.

The flop was A,A and 2 and the opponent bet.I know he don't anther A in his hand and I raise all-in and hope he fold, but he didn't :laugh:

The turn and the river was Q and 4, and i won that hand with a High Card 10

I won with a 2/7 offsuit (worst starting hand in the game). I was on top by a lot and decided to play it. I caught a full house haha.

when I win with a crummy hand, it usually doesn't get to the river, because I'll throw something out there.

But I DO tend to win alot with high card 10

The best hand I've ever won with was a two and a four. The other guy had a two and a three. The pot wasn't that big, but the experience was just great!

My worst hand would have to have been an Ace High. Needless to say I was pretty stunned on that one.
