So does anyone play the slot machines when they go to the casino's? Have you ever won big on them? I have won but nothing that I would call a real big win.

i dont play slots when i go out in the local bar there is a slot and then i see friends playing and loosing and then i tell them that its a waist putting money in it, but then i keep standing and watch how the playing and the funny thing then is that they get very lucky so now if they play they want me to stand next them XD
i am like the luck bringer there :P

If I were you I would be asking for just a tad of the winnings if they think that you are their good luck charm.
