I was just wondering if anyone has ever went and played on any riverboat casino's? If so did you enjoy it? I have always wanted to go to one of these but haven't had the chance yet.

I used to play on a Riverboat all the time but they have since done away with their poker room. Casino wasn't making enough money on it. It's too bad to cause I really enjoyed playing there.

Hopefully they don't all do away with the poker. I enjoy slots but I also enjoy being able to play a game of cards while there.
