
Books for Tips On Texas Holdem

Posted by tater03 - 2008/02/02 18:07

So I was just wondering if anyone has ever gotten any good tips for reading books on Texas Holdem and if so if you could share which ones you liked? thanks

Doyle Brunson's Super System is considered the bible of poker.

I just ordered Negreanu's new book and Hansen's book. What do you think about them? I just started with poker and after I skimmed through some instructions to poker I thought I would start with those too. Was that a good decision?
