Hi,

My name is Tuk and Ive been playing poker for the past 2 years. During this time I've seen bonus and promotions all over the place where typically those who promote them get the most benefit out of it so I have decided to created a blog - <http://tuktukbkk.blogspot.com/> with a new idea where we can get the most out it!

You can get 200 USD to play poker and you can choose from different providers - Party Poker, Pokerstars, Mansion, Full Tilt, Titan, etc. to get the money in.

This is not a scam or spam and you don't need to do any deposits or give your credit card details.

To good to be true? Indeed but it is true.

Whats the catch? Well the site I'm recommending "makes" you learn how to play poker so you actually need to pass a poker quiz (which I more than happy to help you out with) to receive the initial 50 USD and then while you play they will release the rest up to 100 USD.

Why am I then promoting this 200 USD thing? Because I'm giving back 50\$ from the 100\$ I receive per friend and that will enable you to make a total of 200\$. As far as I know I'm the first person around who is actually returning the refer-a-friend money.

I also would like to ask you to spread the word to your friends - It is possible to play poker for real for free!

If you have any questions just reply back or send me an email to tuktukbkk@gmail.com

Best regards,

Tuk
