## My re-buy tourney strategy

---

Tell me what you think: (btw, I start out with an add on, which usually puts me at double of most of the table starting out)

I try to see cheap flops in late position with small to medium pairs and suited connectors. When there are two or more limpers in front of you, I want to hit the flop hard and try to get as many chips as possible from my opponent(s). Lot's of loose players in rebuy tourneys obviously

And I tend to fold when you don't hit the flop.

And lastly, I try to double-up with my big hands.
